Greenwich Wood Products

Greenwich Wood Products was founded in 2002 by Michael Hendershot. Fresh out of the University of Rhode Island, Michael started GWP with the intention of creating aesthetically pleasing and functional products in wood and other interesting materials. Identifying an unfilled niche in the New England market, Michael elected to study furniture making and woodworking techniques with acclaimed furniture makers, boatbuilders, and accomplished RISD graduates and before launching his own line of specialty architectural wood products in 2005. He personally trained his seasoned staff and learned the fine art of hand tool woodworking. With an original specialty in exterior products, GWP has served the New England area with their custom fences, gates, pergolas, doors, arbors and millwork needs for years. In 2008, Greenwich Wood Products expanded their capacities to interior related projects. Our well developed staff is second to none and we are known as one of the top firms in the New England area in respect to full service design/ build architectural millwork. We serve from southern coastal Maine to New York City metro. We can provide you with architectural drawings and plans and take your project from start to finish. With over 15 years in the industry, Greenwich Wood Products has the experience and expertise you require in seeing your dream or desired projects come into reality.
